Crobo Earn Investment Advisory Agreement

Effective date: October 19, 2026

1. Parties and agreement

This Investment Advisory Agreement (the "Agreement") is between **Crobo Advisors LLC**, an Arizona limited liability company registered as an investment adviser with the U.S. Securities and Exchange Commission ("Crobo Advisors," "we," "us"), and the person who accepts this Agreement electronically ("you" or "Client"). Crobo Earn is the name of the advisory program described in this Agreement.

By clicking "I agree" (or similar), you accept this Agreement. It takes effect on the date you accept it and governs the investment advisory services we provide for your Account.

2. Appointment and discretionary authority

You appoint Crobo Advisors as your investment adviser with **full discretionary authority** over the assets in your Crobo Earn brokerage account (the "Account") held at Alpaca Securities LLC ("Alpaca"). This means we may buy, sell, hold and reinvest securities in your Account according to the model portfolio you select, without asking you before each transaction. You grant us a limited power of attorney for that purpose and to deduct our advisory fee as described in Section 5.

We will not: take possession of your assets; move assets to anyone other than you or your linked bank account; borrow on your behalf; or exercise voting rights on securities in your Account (see Section 7).

You cannot direct individual trades in the Account. If you want to hold or trade specific securities on your own, you should do so in a separate account outside this program.

3. The Crobo Earn program and model portfolios

Crobo Earn is a digital advisory program that invests your Account in one of three model portfolios, each built to produce monthly income with a different balance of yield and price risk:

Portfolio	Target annual yield (after fees)	Current allocation
Conservative	7.5%	70% Strategy Inc. preferred stock (STRC); 30% short-term U.S. Treasury bills, held through the iShares 0-3 Month Treasury Bond ETF (SGOV)
Active	9.5%	85% Strategy Inc. preferred stock (STRC); 15% Strive Inc. preferred stock (SATA)
Bold	10%	65% Strategy Inc. preferred stock (STRC); 35% Strive Inc. preferred stock (SATA)

The preferred securities we use today are issued by Strategy Inc. ("STRC") and Strive Inc. ("SATA"). Both are perpetual preferred stocks whose issuers hold large bitcoin positions. The Conservative portfolio also holds SGOV, an exchange-traded fund that invests in short-term U.S. Treasury bills. We may change the securities, allocations or targets in a portfolio at our discretion when we judge it in clients' interests, and will tell you about material changes. Target yields are targets, not guarantees, and we may change them.

We manage the portfolios using rules-based processes that determine allocations, place trades, reinvest income and process withdrawals. Our Investment Committee sets the models and reviews them at least quarterly. Our personnel monitor the program but do not individually review each account or each trade. Our rules do not react to short-term market conditions and will not, for example, sell a security because its price has fallen.

4. Your information and suitability

We select your initial portfolio based on your answers to the Crobo Earn questionnaire (your "Investment Profile"), which asks about your financial situation, investment experience, goals, time horizon and tolerance for loss. You may accept the portfolio we recommend or choose a different one; if you choose a portfolio with more risk than your profile suggests, we will tell you so and ask you to confirm.

You agree that the information you give us is complete and accurate, and that you will **update your Investment Profile promptly** through the app when your circumstances change in a way that could affect the suitability of your portfolio (for example a significant change in income, net worth, time horizon or liquidity needs). We will ask you at least once a year to confirm your profile is current. We rely on the information you give us and are not responsible for recommendations based on information you did not update.

If your answers appear inconsistent with each other, we may ask you to review them before we invest. You agree to give us and Alpaca accurate tax residence information, including whether you are a U.S. person for tax purposes (Form W-9) or a nonresident alien (Form W-8BEN), and to update it if it changes. You may contact us at any time at care@croboearn.com to discuss your Account or Investment Profile, or to ask us to place a reasonable restriction on its management, such as not buying a particular security. We will honor reasonable restrictions where the program allows; if a restriction would prevent us from managing your Account within a model portfolio, we will tell you and you may choose a different portfolio or terminate this Agreement.

We also receive identity and verification information about you from Crobo Money (an affiliate, see Section 12) and from Alpaca to open your Account. Our Privacy Policy explains how we use that information.

5. Advisory fee

Our fee is **1.5% per year of the invested capital in your Account**, accrued daily and charged monthly. It is our only compensation from you. It covers our advisory services and the brokerage, custody and trade-execution costs of the program; Alpaca does not charge you separately for those.

How it is calculated. For each month, the fee equals 1.5% × the invested principal in your Account × (days invested ÷ 365), summed across the deposits that were invested during that month. Capital that has not yet been invested, or that has been withdrawn, is not charged for the days it was not invested.

How it is paid. On or about the 10th of each month, when the income earned by your portfolio in the prior month is distributed, we instruct Alpaca to transfer the fee for that month from your Account to our firm account at Alpaca before the remaining income is paid to you or reinvested. Your fee for a month is capped at the income your portfolio earned for that month. If that income is less than the fee calculated above, we collect only the income and waive the difference; we do not carry it forward, and we never sell securities or use your principal to pay the fee. You authorize Alpaca to make these transfers. Each fee transfer appears on your Alpaca account statement.

Changes. We may change the fee on 30 days' written notice to you. If you do not agree to a change, you may terminate this Agreement before it takes effect.

Other costs. The securities in your portfolio may have their own costs, which are reflected in their prices or yields rather than charged to you directly. There are no account-opening, maintenance, deposit or withdrawal fees in the program. Your bank may charge you for transfers.

6. Brokerage and custody

Your Account is a brokerage account in your name at **Alpaca Securities LLC**, a broker-dealer registered with the SEC and a member of FINRA and SIPC. Alpaca is the qualified custodian of your assets. Crobo Advisors does not hold your cash or securities. You will enter into a separate customer agreement with Alpaca, which governs the Account itself.

All transactions in your Account are executed through Alpaca. We do not receive compensation from Alpaca for directing trades to it. We have reviewed Alpaca's execution quality and believe it is consistent with our duty to seek best execution; you should know that using a single broker means we do not compare prices across brokers for each trade.

Alpaca will send you trade confirmations and at least quarterly account statements directly, in electronic form. You should review them carefully and compare them to the information shown in the Crobo Earn app. Alpaca's statements are the official record of your Account. The app shows gross income earned, our fee, and the net amount paid to you, so that the statement and your bank deposits reconcile.

SIPC protects securities and cash in your Account up to applicable limits if Alpaca fails. **SIPC does not protect against a decline in the value of your investments.** Your Account is not a bank account and is not insured by the FDIC.

7. Income, payouts and reinvestment

The securities in your portfolio pay dividends, typically monthly. We treat all income received in a month as that month's distribution. On or about the 10th of the following month, after our fee is collected, the net income is either (a) paid to your linked bank account by ACH, or (b) reinvested in your portfolio, according to the income option you select in the app. You may change the option at any time before a distribution date; the change applies to the whole Account.

If the net income for a month is below the minimum we can invest or transfer (currently $1), we hold it and add it to the next month's distribution. Dividend amounts and timing are set by the issuers and can change or stop; we do not guarantee any level of income.

We do not vote proxies or act on corporate actions on your behalf. Proxy materials and other issuer communications will be sent to you by Alpaca.

8. Deposits and withdrawals

Deposits. You fund the Account by ACH transfer from a bank account you link through the app. Deposits are invested in your portfolio after the transfer settles, usually within one to three business days, at the prices then available. We may set minimum and maximum deposit amounts and will display them in the app. Until a deposit is invested it is held as cash in your Account and does not earn program income.

Withdrawals. You may request a withdrawal of any amount at any time through the app. We sell the securities needed to meet your request at the then-current market price, and the proceeds are sent to your

linked bank account after the sales settle, usually within three to five business days. **The amount you receive reflects the market value of the securities sold at the time of sale, which may be more or less than the amount you invested.** Withdrawals reduce the invested capital on which income is earned. Funds you deposited within the last 7 days are on hold and become available to withdraw when the hold ends. Other than that hold, there is no lock-up period and no withdrawal penalty.

Processing. Deposits, investments, distributions and withdrawals are processed on business days when U.S. securities markets are open. Transfers may be delayed by bank holds, Alpaca's settlement cycle, market closures, or our review for fraud or error.

9. Risks you acknowledge

Investing involves risk, including the possible loss of the money you invest. You acknowledge that you have read our Form ADV Part 2A, which describes the program's risks in more detail, and that you understand in particular:

- **Market and price risk.** The securities in your portfolio trade on public markets and their prices rise and fall. A withdrawal made when prices are below your purchase price will return less than you invested. Preferred securities can trade well below their stated value for extended periods.
- **Concentration risk.** Every portfolio is concentrated in the preferred stock of Strategy Inc., which makes up 65% to 85% of each portfolio, and the Active and Bold portfolios also hold preferred stock of Strive Inc. A problem at Strategy Inc. would affect most of your portfolio whichever one you choose. These are not diversified portfolios.
- **Issuer and bitcoin-linked risk.** Both issuers hold most of their assets in bitcoin and fund their preferred-stock dividends partly by raising capital. Their ability to pay dividends, and the market price of their preferred securities, is affected by the price of bitcoin and by their access to capital markets. A sustained fall in bitcoin could reduce or stop dividends and sharply reduce the value of the securities.
- **Income risk.** Dividends on the securities are set by the issuers, can be changed or suspended, and are not guaranteed. The target yields are our estimates and are not promises.
- **Interest-rate risk.** Preferred and Treasury securities generally fall in price when interest rates rise.
- **Liquidity risk.** Trading in the preferred securities may be thin at times. We may not be able to sell at the price shown in the app, or at all, during a market disruption.
- **Algorithm and operational risk.** Our rules-based processes may contain errors, may act on incorrect data, and do not respond to market events the way a human manager might. Alpaca, our bank-transfer provider, or our own systems may experience outages or delays.
- **Tax.** Distributions are generally taxable to you whether paid out or reinvested. Sales for withdrawals may produce gains or losses. We do not give tax advice.

10. No guarantee

We do not guarantee the performance of your Account, any level of income, the preservation of your principal, or that the program will achieve its targets. Past performance of the securities or the program does not predict future results.

11. Limitation of liability

We will use the care, skill and diligence that a prudent investment adviser would use under similar circumstances, and we owe you a fiduciary duty under the Investment Advisers Act of 1940. Except for losses caused by our negligence, willful misconduct, bad faith or breach of this Agreement or applicable law, we are not liable for: losses from market movements or the performance of any security; actions or omissions of Alpaca, your bank, or other third parties we do not control; delays or failures caused by events beyond our reasonable control; or your tax consequences.

Nothing in this Agreement limits or waives any right you have under the Investment Advisers Act of 1940, the Securities Exchange Act of 1934, or any state securities law, and nothing in it limits our fiduciary duty to you. Those laws may give you rights that this Agreement cannot take away.

12. Conflicts of interest and affiliates

Crobo Advisors is owned by GetBit Technologies Inc., which also owns **Crobo Money**, a money-transfer service. Crobo Money promotes Crobo Earn to its customers and shares identity information with us to open your Account. Crobo Money is not compensated for referring you, and your use of Crobo Earn does not affect your Crobo Money account, but you should understand that both businesses benefit when you invest through the program.

Our fee is a percentage of invested capital, so we benefit when you deposit more and withdraw less. We address this by disclosing it here and by making withdrawals available at any time without penalty.

Our personnel may own the same securities we buy for clients. Our Code of Ethics governs their personal trading. We do not receive payments from the issuers of the securities in the portfolios, from Alpaca, or from any other third party in connection with your Account.

13. Electronic delivery and communications

You consent to receive all notices, disclosures, agreements, statements, confirmations, tax documents and other communications from us electronically, through the Crobo Earn app and website or by email to the address on your profile. You may withdraw this consent by writing to us, in which case we may terminate this Agreement, since the program is delivered only electronically. You are responsible for keeping your email address current and for maintaining the equipment and software needed to access electronic communications.

14. Documents you have received

You acknowledge that before accepting this Agreement you received, electronically, our Form ADV Part 2A (brochure), Form CRS (relationship summary), and Privacy Policy, and that you had the opportunity to read them and ask questions. If you did not receive the brochure at least 48 hours before accepting this Agreement, you may terminate it without penalty within five business days after acceptance.

15. Term and termination

This Agreement continues until terminated. **You may terminate at any time** by withdrawing all funds and closing your Account in the app, or by written notice to us. We may terminate on 30 days' written notice, or immediately if we reasonably believe your Account is being used for fraud or unlawful activity, if you breach this Agreement, or if we are required to by law or by Alpaca.

On termination we will stop managing your Account, sell the securities in it, and send the proceeds to your linked bank account, unless you instruct us in writing to transfer the securities elsewhere. Fees accrued through the termination date remain payable. Termination does not affect transactions already in progress.

16. Assignment

We will not assign this Agreement (as that term is interpreted under the Investment Advisers Act) without your consent. We may give you notice of a proposed assignment and treat your continued use of the program after 30 days as consent. You may not assign this Agreement.

17. Death or incapacity

This Agreement continues after your death or legal incapacity until we receive written notice and the documents Alpaca requires. Your executor, guardian or attorney-in-fact may then terminate it. We are not liable for transactions made before we receive that notice.

18. Dispute resolution and arbitration

Please read this section carefully. It affects your legal rights.

You and we agree to try to resolve any dispute informally first by contacting each other (for us, at care@croboearn.com). If a dispute is not resolved within 60 days, it will be resolved by **binding individual arbitration** administered by the American Arbitration Association under its Consumer Arbitration Rules, before a single arbitrator. The arbitrator may award the same relief a court could award to you individually. Judgment on the award may be entered in any court with jurisdiction. The Federal Arbitration Act governs this section.

You and we each waive the right to a jury trial and the right to participate in a class action or class-wide arbitration. Either party may bring an individual claim in small-claims court instead.

Opt-out. You may opt out of this arbitration section by emailing care@croboearn.com within 30 days after you accept this Agreement with your name and a statement that you opt out. Opting out does not affect any other part of this Agreement.

This section does not limit your right to file a complaint with the SEC or any state securities regulator.

19. Governing law

This Agreement is governed by the laws of the State of Arizona and the federal securities laws of the United States, without regard to conflict-of-law rules, except that Section 18 is governed by the Federal Arbitration Act.

20. General terms

Entire agreement. This Agreement, together with our Form ADV Part 2A, Form CRS, Privacy Policy, Terms of Use, and your Alpaca customer agreement, is the entire agreement between us about the program. If this Agreement conflicts with the Terms of Use, this Agreement controls for advisory matters.

Changes. We may amend this Agreement by giving you 30 days' notice through the app or by email. Your continued use of the program after the effective date is your acceptance. Amendments that increase our fee or materially reduce your rights will be presented for your affirmative acceptance.

Severability. If any provision is unenforceable, the rest of the Agreement remains in effect.

Waiver. Our failure to enforce a provision is not a waiver of it.

Notices. Notices to you will be sent to your email on file or shown in the app. Notices to us should be sent to care@croboearn.com or to Crobo Advisors LLC, 113 Cherry St PMB 164652, Seattle, WA 98104.

Independent contractor. We are an independent contractor and not your employee, partner or agent except for the limited authority this Agreement grants.

Survival. Sections 5 (fees accrued), 9, 10, 11, 18, 19 and 20 survive termination.

Acceptance

By clicking "I agree," you confirm that you are at least 18 years old, a U.S. resident, legally able to enter this Agreement, that you have read it and the documents listed in Section 14, and that you agree to be bound by it, including the arbitration provision in Section 18.
